Senate Passes Nuclear Leadership Act Provisions.

*Nuclear Townhall* reports that yesterday the Senate approved the its fiscal National Defense Authorization Act by a vote of 86-14.

Among the provisions added to the bill were parts of the S.903, the Nuclear Leadership Act, from Energy and Natural Resources Committee Chairwoman Lisa Murkowski (R-AK) and Senator Cory Booker (D-NJ). The House-passed version of the NDAA passed earlier in the week and the two bills will now have to be reconciled before being sent to President Trump for signature and enactment.
